Study Finds Duke Trails Its Conference Rivals in Hiring Black Coaches

It was not until 1982 that the first black head coach was hired by colleges and universities in the Atlantic Coast Conference (ACC). Today, the 12 universities that are currently members of the ACC (Syracuse and Pittsburgh have announced that they will join the conference next year) have eight black head coaches combined in all sports. But, according to a report published in the Charlotte Observer, Duke University, has no black head coaches. In fact, Duke has never had a black head coach in any sport. All 11 of the other universities in the ACC have had at least two black head coaches.

For most of American history, a majority of the black population in this country was prohibited from learning to read or write. Today African Americans are enrolling in higher education in record numbers. Here are some key events that occurred along the way:

1799: John Chavis, a Presbyterian minister and teacher, is the first black person on record to attend an American college or university. There is no record of his receiving a degree from what is now Washington and Lee University in Lexington, Virginia.

1804: Middlebury College awards an honorary master’s degree to Lemuel Haynes, an African American who fought in the Revolutionary War.

1823: Alexander Lucius Twilight becomes the first known African American to graduate from a college in the United States. He received a bachelor’s degree from Middlebury College in Vermont.

1826: Edward Jones graduates from Amherst College. Jones is believed to be the second African American to earn a college degree.

1826: Two weeks after Edward Jones graduated from Amherst College, John Brown
Russwurm graduates from Bowdoin College in Maine. He is the third African American to graduate from college in the U.S.

1828: Edward Mitchell graduates from Dartmouth College. He is believed to be the fourth African American to graduate from an American college.
