

## EVAP EVALUATION INSTITUTES

↘ **ST. THOMAS, U.S. VIRGIN ISLANDS**  
**FEBRUARY 4-6, 2009**                      **\$800**

The 3-day Beginner's Overview will spend the first day exploring evaluation applications, theory, ethics, and vocabulary with the two remaining days covering the elements of evaluation design, instrument development, data analysis, and evaluation reports.

↘ **MIAMI BEACH, FLORIDA**  
**MARCH 25-27, 2009**                      **\$800**

This 3-day Advanced Institute will focus on data analysis and report writing in the context of previously formulated questions and evaluation plans. Participants are expected to bring evaluation data and plans with them for group and individual guided practice.

↘ **NEW YORK, NEW YORK**  
**MAY 13-15, 2009**                      **\$800**

The 3-day Beginner's Overview will spend the first day exploring evaluation applications, theory, ethics, and vocabulary with the two remaining days covering the elements of evaluation design, instrument development, data analysis, and evaluation reports.

↘ **WRIGHTSVILLE BEACH, NORTH CAROLINA**  
**AUGUST 10-14, 2009**                      **\$1200**

This 5-day Comprehensive Introduction will provide a thorough review of program evaluation topics that will assist participants in creating an evaluation plan. Participants for this Institute are asked to arrive at the training with background information about a program they need to evaluate.

## THE 2009 EVAP EVALUATION INSTITUTES

3- and 5-day training by EvAP:  
Evaluation, Assessment, and Policy Connections

### Evaluation Training

↘ in St. Thomas, Virgin Islands, Miami Beach, Florida,  
New York, New York, or coastal North Carolina

## Developing and sustaining a successful program can be challenging.

As a program grows and changes, it is important to actively guide its development. Program evaluation offers a systematic approach to setting goals, determining how to meet those goals, and identifying methods through which progress can be measured. This information allows program stakeholders to make informed decisions about the future path of their program.

The EvAP Evaluation Institutes give program stakeholders a rare opportunity to gain a better understanding of evaluation.

During the institute, participants will review useful program evaluation theory and develop an evaluation plan within the context of their individual program that will include instrument development, data analysis, and report writing.

“This was the most useful conference I've ever attended. It was very well planned and information was presented in a practical, true-to-life format. I will recommend this conference to anyone who is doing program evaluation.”

## Our Mission

is to build the evaluation capacity and effectiveness of private, public, and nonprofit organizations.

EvAP is an internationally recognized evaluation center in the School of Education at the University of North Carolina at Chapel Hill.

### Recent Major Projects at EvAP Include:

- ⇒ First 5 Los Angeles Child Care Initiative
- ⇒ NIDA Substance Abuse Prevention
- ⇒ The W.K Kellogg Pre-Birth Through Age Three Initiative
- ⇒ National Science Foundation R.O.B.O.T.S. Project
- ⇒ GEAR-UP NC College Access
- ⇒ Title VI K-12 International Outreach Evaluation Toolkit Development

**Dr. Rita O'Sullivan,**  
Executive Director of EvAP and author of *Practicing Evaluation* (Sage, 2004), and EvAP staff use their collective expertise to guide participants through the steps of systematic, collaborative, program evaluation.
