PURPOSE

To provide strategies that will assist the Infection Preventionist to achieve and maintain success in today's changing healthcare environment.

PROGRAM OBJECTIVES

1. To enhance the Infection Prevention and Control Professional's scientific knowledge base about healthcare associated infections.
2. To increase the Infection Prevention and Control Professional's knowledge of current state and federal guidelines impacting the function of infection prevention and control.
3. To enhance the Infection Prevention and Control Professional's knowledge related to public health issues.
4. To enhance the Infection Prevention and Control Professional's knowledge of epidemiologically important microorganisms.

Contact hours have been applied for from the North Carolina Nurses Association, an accredited approver by the "American Nurses Credentialing Center's Commission on Accreditation "

PROGRAM SPONSORS

APIC-NC gratefully acknowledges the financial support of this program by members of the pharmaceutical and hospital industry who have provided direct support for speakers or program functions, and who will be displaying the latest patient care and infection control related products.
