Feedback from our Host Organizations

...on our program

"On behalf of the Richmond Community College Global Education Committee, I would like to thank the University of North Carolina at Chapel Hill and the Carolina Speakers for giving us the ability to present outstanding speakers to our students, faculty, and community. As a small community college with limited resources, we would never have been able to afford speakers of this calibre on our own. Through your generosity our students were introduced to new ideas and viewpoints and a greater appreciation of the complex world around them. Several programs have been the springboard for further discussions and programs to clarify issues covered in the presentation."
