

## COASTAL HAZARDS CENTER

*A U.S. Department of Homeland Security Center of Excellence*

### **DHS COASTAL HAZARD MODELING FELLOWSHIP**

The Coastal Hazards Center of Excellence (CHC) based at the University of North Carolina at Chapel Hill is seeking one or more highly motivated individuals who is interested in pursuing either an MS or a PhD degree with focus in coastal hazards modeling. Funded by the U.S. Department of Homeland Security Science and Technology Directorate, this fellowship targets students interested in pursuing rigorous coursework and hazards modeling research with real-world applications. Student support includes tuition, benefits, an annual stipend, travel funds to attend at least one conference or symposia and two 10-week paid summer internships. Fellowship recipients must be U.S. citizens and must work at least one year after graduation in a homeland security-related position.
