

BIOGRAPHY

Calvin L. Baldwin

Industry Experience:

New Computer Design

Functional Experience:

New Product Introduction Manager

Calvin Baldwin is a Project Manager for the eServer xSeries business unit in Research Triangle Park, North Carolina. He is responsible for the development and deployment of new server products. Initially after joining IBM he worked as a computer engineer with a focus on the hardware design of "high speed" computer memory and video graphics technologies.

Since joining IBM in 1997, Mr. Baldwin has worked in several capacities and business units. He first began his engineering career in the Consumer Desktop Division. He then transferred to the Intellistation Workstation Group and later to the xSeries Server Group. He now works as a Project Manager, planning the details of new server products, where he ensures design integrity and timely delivery to IBM customers world-wide.

Mr. Baldwin is the co-founder of Xtreme Tech, an all-volunteer technology club for early career IBM employees. In his spare time, he plans and coordinates Xtreme Tech activities to help foster the technical growth and development of early tenure IBM engineers. As an extracurricular activity he plans events with TheUCEGroup.com. For increased technical vitality and career enrichment, he continuously studies new technologies. His hobbies include: studying new product brand marketing, skiing, and playing cards.

Mr. Baldwin received a Bachelor of Science degree in Electrical Engineering from Vanderbilt University in Nashville, Tennessee and a Masters of Business Administration (MBA) from The University of North Carolina's Kenan-Flagler Business School.
