The Concept Of Culture

Culture is defined various ways.

- The way we do things here
- The man-made part of the environment
- The collective programming of the mind
- The shared way of life of a group of people

Moving Beyond the Five "F's"

- Food
- Flags
- Festivals
- Fashion
- Folklore

Building A Global Community

- Think of no one as "them".
- Imagine other cultures through their poetry and novels.
- Listen to music you don't understand. Dance to it.
- Act locally.
- Know how and where what we eat and wear are produced.
- Learn a second language.
- Play games from other countries.
- Know your heritage.
- Look at the moon and imagine someone else, somewhere else, looking up at it too.
- Understand the global community in terms of people, land and water.
- Don't confuse money with wealth, or time with money.
- Have a pen/e-mail pal.
- Honor indigenous cultures.
- Eat adventurously.
- Choose curiosity over certainty.
- Pledge allegiance to the Earth.
- Think South, Central and North—there are many Americans.
- Assume that many others share your dreams.
