2008 Global Education Leaders' Program

June 15-20, 2008

“Ours is a world of 24-hour news cycles, global markets, and high-speed Internet. We need to look no further than our morning paper to see that our future, and the future of our children, is inextricably linked to the complex challenges of the global community. And for our children to be prepared to take their place in that world and rise to those challenges, they must first understand it.”

US Secretary of Education (2003)

“Today’s schools are out of sync with the realities of our global world.”

School of Ed Professors Suarez-Orozco & Satin
