

SOCIOLOGY 427: THE LABOR FORCE

Fall, 2009
Class Times: 9:30-10:45 Tuesday/Thursdays
Howell 107
Instructional Assistant: Ms. Rosemary Russo

Professor Arne Kalleberg
Hamilton Hall 261 (962-0630)

OVERVIEW OF COURSE TOPICS

This course examines the changing nature of the labor force and provides an introduction to some key issues in the study of work and employment. Most of the material will deal with the U.S. in the 20th and 21st centuries, though we will also make cross-national and historical comparisons.

The course is divided into five main parts.

The first part provides an overview of the labor force, such as definitions of employment and unemployment, labor force participation rates of various groups, and trends in working time and unemployment.

We next discuss various ways in which work is structured: by means of employment relations, organizations, and occupations and industries.

Third, we examine characteristics of the workers who perform these work activities. Labor force members differ in their education, gender, race and ethnicity, and age. Topics to be studied include: work and inequalities between men and women; racial and ethnic inequality; and the relations between work and family.

Fourth, we will study ways that people are matched to jobs in industrial societies. We will consider issues related to job search and hiring practices, migration and immigration, the distribution of jobs among regions in the U.S. and among countries in the world

Finally, we will consider various work-related problems, such as: illegal immigration; low-wage jobs; and layoffs. We will discuss various policies that might help to tackle these and other issues facing the labor force of the future.

READINGS

Reading assignments for each class are listed in the attached reading list. You are responsible for doing ALL the readings by the assigned date, even if we do not discuss them in class. Classes always go better when students do the reading. There will be times when you cannot do the readings; you should come to class anyway. We will read two books:

Arne L. Kalleberg, *The Mismatched Worker*. New York: W.W. Norton, 2007.

Louise Marie Roth, *Selling Women Short: Gender Inequality on Wall Street* (Princeton University Press 2006).

These books are available in the UNC bookstore and on Amazon.com.

Copies of the other readings are available for download from the course Blackboard website (under “Course Documents”) or are available on-line at the URL given in the syllabus.

GRADING

My teaching goals are for students to: become familiar with some very important issues related to the labor force; understand the social and other contextual reasons for why work is organized and experienced the way it is in the U.S. and other advanced industrial societies; to think about various social and economic policies that might be used to address some central problems related to work; and to acquire knowledge and skills that will help them in their future careers.

In line with these goals, I will base your grade on the following criteria:

(1) 30% of your grade will be determined by your group work (joint written paper and class presentation) on two things:

--A policy brief (15%: presented in various classes until November 17).

--An “Op-Ed” dealing with a particular work-related problem (15%: presented in classes from November 19 through December 8).

(I will assign you to one of ten teams of four students each.)

(2) 45% of your grade will be based on three short individual papers:

--A unit news report (15%: due on September 10).

--A research paper on occupations (15%: due on September 29).

--A book review of Roth, *Selling Women Short*/review of the movie “Anchorman” (15%: due on October 27).

(3) 15% of your grade will be based on the final exam (scheduled for December 17 at 8:00 am).

(4) 10% of your grade will be based on your participation in class and in group activities.

More information on all these assignments will be posted on the course Blackboard website (under “Assignments”).

Please note that is a University rule to have a final in this course and it can only be rescheduled if you have three finals within a 24-hour span. If you are in this situation, please let me know (as soon as you are aware of this conflict) and I will do what I can to reschedule the final to accommodate your schedule.

Assignment of final letter grades for the course will be guided by the following cutoff points (which may be adjusted slightly if overall class performance is unexpectedly low or high):

A-/A :	90 and over
B-/B/B+ :	80-89
C-/C/C+ :	70-79
D-/D/D+ :	55-69
F :	< 55

Class participation is very important. I urge all of you to attend class regularly and to read the assigned materials on time.

HONOR CODE

All exams and assignments in this course are covered by the UNC Student Honor Code (please read carefully the Honor Code: <http://instrument.unc.edu>). With respect to the individual paper assignments, this means that what you turn in should be your own work. On the final exam, you should ask me for clarification of questions you don't understand, but you must not get information from any other materials or people.

HOURS

My office hours are Mondays, 2:00-3:00, and Tuesdays, 1:00-2:30 in Hamilton Hall 261.

ETC.

E-mail is the best way to contact me (My email address is: arnekal@email.unc.edu). It is especially good for brief communication (blunt questions with short answers). E-mail is not a substitute for asking questions in class.

If you have questions about the subject or procedures of the course, please ask them in class. Others will benefit from your questions.

If you have a disability that requires consideration, please tell me at the start of the semester; I will be happy to do what I can to accommodate you.

Please turn off cell phones (or set them to silent mode) in class.

You may use laptops, but only for class purposes: do not check email or browse the web for things unrelated to what we are discussing in class.

Disasters occur. If one happens to you and it affects your ability to meet course requirements, tell me immediately. Do not wait.

Check your email and the course Blackboard site regularly. Readings or assignments may change over the course of the semester and so visiting our Blackboard site at least every few days will ensure you have the most current information.

SOCIOLOGY 427: THE LABOR FORCE (Fall 2009)

COURSE CALENDAR AND READING LIST

****ANY CHANGES IN THIS COURSE CALENDAR WILL BE ANNOUNCED ON THE BLACKBOARD COURSE WEBSITE****

August 25 OVERVIEW AND INTRODUCTIONS

I. OVERVIEW OF THE LABOR FORCE

August 27 CONCEPTS AND DEFINITIONS

Questions: What do we mean by "work" and "labor force"? What are the main ways we classify workers and labor force members?

Concepts enumerated and defined: http://www.bls.gov/cps/cps_htgm.htm

For reference: A labor force glossary: <http://www.bls.gov/bls/glossary.htm>

September 1 PATTERNS OF LABOR FORCE PARTICIPATION

Questions: How do patterns of labor force participation differ by gender, age, education and other characteristics?

Arne Kalleberg, *The Mismatched Worker*, pp. 33-44
