

Because **SMELL**ing the roses is sweeter than **SMELL**ing your bug spray.

Off products provide protection that cannot compare. It is a protection you can trust, even with your most precious cargo. Off products are safe enough for the sensitive skin of children, and tough enough to keep pesky bugs from interfering with your outdoor adventures. The formula is gentle and non-greasy, perfect for the entire family. Off products come in unscented formulas, as well as pleasant smelling scents such as Fresh Scent. So the next time you or your family head for the great outdoors, make sure to pack the necessary equipment so that your senses can enjoy the wonders that await you.
