2002 Chapel Hill Expert Survey

Funded by the University of North Carolina at Chapel Hill
European Union Center for Excellence

Revised October 2008

The *2002_ChapelHillSurvey.sav* dataset provides data on party positioning on European integration for 171 parties in 14 EU member states (not Luxembourg) and nine prospective EU member states (Bulgaria, Czech Republic, Hungary, Latvia, Lithuania, Poland, Romania, Slovakia, and Slovenia). The survey was administered between September 2002 and April 2003 to 636 academics specializing in political parties or European integration in one of the countries considered. Two-hundred-thirty-eight surveys were completed, which amounts to a 37 percent response rate.

The data collection team consisted of Erica Edwards, Moira Nelson, Liesbet Hooghe, Gary Marks, David Scott, Marco Steenbergen and Milada Vachudova. Please contact hooghe@unc.edu or edwards@ihs.ac.at for information on the reliability and validity of the survey.*

This survey follows up on and complements earlier surveys conducted by Leonard Ray (1999) for the years 1984, 1988, 1992 and 1996, and by Gary Marks and Marco Steenbergen (2007) for 1999. The 1984–1999 dataset is available from <http://www.unc.edu/~gwmmarks>.

To facilitate merging the 2002 dataset with the combined Ray/Marks/Steenbergen dataset we made party id, party labels, and variable names for identical questions consistent across datasets. Where questions are not identical we use different variable names across datasets.

This codebook should be read with the *2002_ChapelHillSurvey.sav* SPSS data file. Please consult the two survey questionnaires—one for the EU-15 and one for Central and Eastern European countries—for full question format.

*In papers or publications that utilize this dataset users are asked to refer to the dataset as the *2002 Chapel Hill expert survey* and cite documentation as follows (this citation will be replaced by the article of record for the dataset when information is available):
