Gaborone Children’s Health Study

Thank you for your help on this important study which is an international collaborative effort. This survey is about several health topics important to women and their families. Remember, there are no right or wrong answers to these questions. We would like to know what you think about these important topics.

A. General

A1. Have you ever heard of human papillomavirus or HPV?
   □ Yes  □ No
   HPV is different from HIV.

A2. Have you ever heard of genital warts?
   □ Yes  □ No

A3. Have you ever heard of cancer of the cervix or cervical cancer?
   □ Yes  □ No  □ If no, skip to question B.

A4. If a woman had cervical cancer, list three things you think are most likely to have caused it.
   #1 (most likely)____________________________________________________________
   #2 _______________________________________________________________________
   #3 _______________________________________________________________________

The next questions are about HIV (human immunodeficiency virus) and cervical cancer.

A5. How do you think HIV affects a woman’s chance of getting cervical cancer?
   □ Lowers her chance  □ No effect  □ Raises her chance  □ Don’t Know

A6. How do you think HIV affects a woman’s chance of getting HPV infection?
   □ Lowers her chance  □ No effect  □ Raises her chance  □ Don’t Know

B. Daughter’s Health

B1. Do you have any children? □ Yes  □ No

B2. If yes, please list the age of each child, including adult children.

   Age _______ □ Female  □ Male
   Age _______ □ Female  □ Male
   Age _______ □ Female  □ Male
   Age _______ □ Female  □ Male
   Age _______ □ Female  □ Male
   Age _______ □ Female  □ Male
   Age _______ □ Female  □ Male

Male or Female (Circle)  Site: IDCC or Gen Med  1  v1/13/09ID ________________
HPV (human papillomavirus) is a common sexually transmitted infection that sometimes leads to genital warts and cervical cancer. HIV infection increases your chances of developing cervical cancer. Cervical cancer affects the cervix, which is the opening to the womb. Cervical cancer is the most common female cancer in Botswana.

The reproductive parts on the inside

Cervix: This is the opening or ‘mouth’ of the womb, where it opens into the vagina. Sperm can enter the womb through the small hole in the cervix, but it protects the womb from other things, like a man’s penis. During childbirth, the cervix opens to let the baby come out.

The next questions are about daughters aged 9-18. If you do not have a daughter, please answer these questions as if you do. If she is not ages 9-18 imagine her being age 9-18.

B3. What is the chance that your daughter will be infected with human papillomavirus or HPV in her lifetime?

☐ No chance ☐ Low ☐ Moderate ☐ High

B4. If your daughter were infected with HPV, how serious a threat to her health would it be?

☐ No threat ☐ Low ☐ Moderate ☐ High

B5. What is the chance that your daughter will get cervical cancer in the future?

☐ No chance ☐ Low ☐ Moderate ☐ High

B6. If she did get cervical cancer, how serious a threat to her health would it be?

☐ Extremely low ☐ Low ☐ Moderate ☐ High ☐ Extremely high
The next questions are about HIV and genital warts, both infections transmitted by sex.

B7. What is the chance that your daughter will be infected with HIV in her lifetime?

☐ No chance  ☐ Low  ☐ Moderate  ☐ High  ☐ She already has HIV

B8. If your daughter were infected with HIV, how serious a threat to her health would it be?

☐ Extremely low  ☐ Low  ☐ Moderate  ☐ High  ☐ Extremely high

B9. What is the chance that your daughter will be infected with genital warts in her lifetime?

☐ No chance  ☐ Low  ☐ Moderate  ☐ High  ☐ She already has genital warts

B10. If your daughter had genital warts, how serious a threat to her health would it be?

☐ Extremely low  ☐ Low  ☐ Moderate  ☐ High  ☐ Extremely high

C. HPV vaccine: An HPV vaccine is now available that protects against most genital warts and cervical cancer. Sometimes it's called the cervical cancer vaccine, HPV shot, Cervarix or Gardasil. We will call it the HPV vaccine.

C1. Have you heard of the HPV vaccine before today?

☐ Yes  ☐ No

D. Vaccinating your Daughter: When the new HPV vaccine becomes available in Botswana, it will probably be recommended for girls between ages 9 and 18.

Please answer the next questions thinking about your daughter. If you do not have a daughter, please answer these questions as if you do. If she is not ages 9-18 imagine her being age 9-18.

D1. How likely are you to get your daughter the HPV vaccine when it becomes available?

☐ Definitely won’t  ☐ Probably won’t  ☐ Probably will  ☐ Definitely will

D2. If a doctor recommended the HPV vaccine for your daughter, would you give it to her?

☐ Definitely won’t  ☐ Probably won’t  ☐ Probably will  ☐ Definitely will

D3. If a nurse recommended the HPV vaccine for your daughter, would you give it to her?

☐ Definitely won’t  ☐ Probably won’t  ☐ Probably will  ☐ Definitely will

D4. Would you give the HPV vaccine to your daughter if it were available with other childhood vaccines?

☐ Strongly Disagree  ☐ Disagree  ☐ Agree  ☐ Strongly Agree

D5. I don’t have enough information about the HPV vaccine to decide whether to give it to my daughter.

☐ Definitely won’t  ☐ Probably won’t  ☐ Probably will  ☐ Definitely will

D6. If my daughter gets the HPV vaccine, she may be more likely to have sex.

☐ Definitely won’t  ☐ Probably won’t  ☐ Probably will  ☐ Definitely will
E. Imagine you WANT to get the HPV vaccine to for your daughter and it is available in Botswana.

E1. Where would you first go to get her the HPV vaccine? (please check ONLY one)

☐ Family doctor or general practitioner  ☐ Pediatrician  ☐ Gynecologist or OB/GYN
☐ Public or community clinic  ☐ School clinic  ☐ Other: __________________________

E2. If the HPV vaccine were available at your daughter’s school, would you want her to get it there?

☐ Yes  ☐ No

E3. How hard do you think it would be to find a provider or clinic that is easy to get to for the HPV vaccine?

☐ Not hard at all  ☐ Somewhat hard  ☐ Hard  ☐ Very hard

E4. Again, imagine the HPV vaccine is available here, list three reasons that would make getting the HPV vaccine for her difficult.

#1 (most difficult) ____________________________________________________________

#2 __________________________________________________________________________

#3 __________________________________________________________________________

E5. Please list all those who would make the decision to get the HPV vaccine for your daughter: (check all that apply)

☐ Me  ☐ My spouse/partner  ☐ My daughter  ☐ An elder  ☐ Her doctor
☐ Other ____________________________

E6. How much would you discuss the decision with your daughter to get her the HPV vaccine?

☐ Not at all  ☐ A little  ☐ A moderate amount  ☐ A lot

E7. If the HPV vaccine were NOT paid for by the government, what is the most you would pay of your own money to get the HPV shots for your daughter? ______________ pula

F. Pap smear: Screening for Cervical Cancer. The Pap test, also called a Pap smear, checks for changes in the cells of your cervix. The Pap test can tell if you have an infection, abnormal (unhealthy) cervical cells, or cervical cancer. How is a Pap test done? Your doctor takes a sample of cells from your cervix to be tested and examined. While you lie on an exam table, the doctor puts a special instrument called a speculum into your vagina, opening it to see the cervix. Your doctor will then use a special stick or brush to take a few cells from inside and around the cervix.

F1. Have you ever had a Pap test?

☐ Yes  ☐ No  ☐ N/A (because I am male)

F2. Are you willing to get a Pap test in this next year?

☐ Yes  ☐ No  ☐ N/A (because I am male)

F3. Please list the reason for your answer to F2. If you answered yes, why would you have a Pap test? If you answered no, why you would NOT get one done?

#1 __________________________________________________________________________

#2 __________________________________________________________________________

#3 __________________________________________________________________________
**G. Background:** The next questions about your background will help us understand study participants. Your answers are completely anonymous and confidential.

G1. Has someone you care about ever had cervical cancer?
- [ ] Yes  
- [ ] No

G2. Has a doctor or other medical professional ever told you that you have **cervical cancer**?
- [ ] Yes  
- [ ] No  
- [ ] N/A (because I am male)

G3. Has a doctor or other medical professional ever told you that you have **HIV (human immunodeficiency virus) or AIDS**?
- [ ] Yes  
- [ ] No  
- [ ] Never tested

G4. Has a doctor or other medical professional ever told you that you have genitalic warts?
- [ ] Yes  
- [ ] No

G5. Has a doctor or other medical professional ever told you that you had other **sexually transmitted infections** like chlamydia, gonorrhea, herpes ulcers, or syphilis?
- [ ] Yes  
- [ ] No

G6. What is your age? ________

G7. What is your marital status?
- [ ] Married or living as married
- [ ] Separated
- [ ] Divorced
- [ ] Never married
- [ ] Widowed

G8. What is the highest level of education you completed?
- [ ] Less than primary education
- [ ] Primary education
- [ ] Secondary education
- [ ] Certificate
- [ ] Diploma
- [ ] Bachelor’s
- [ ] Masters or Doctorate

G9. What is your religious background? ______________________________________

G10. What town/city do you currently live? _____________________________________

G11. Do you have a regular source of income?
- [ ] Yes  
- [ ] No

If yes, what is your monthly income in pula?
- [ ] Less than 1000
- [ ] 1000-2499
- [ ] 2500-4999
- [ ] 5000-10000
- [ ] More than 10000

Thank you for participating in the Gaborone Children’s Health Study. What we learn from you and other parents may affect policies about HPV vaccination in Botswana and help girls in the country get better health care.
**Tshekatsheko ya botsogo jwa bana ba Gaborone**

Re leboga thuso ya gago mo dipatlisisong tse di bothlokwa tse e leng maiteko a boditshabatshaba. Potsolotso e ke ya dintlha dingwe tse di bothlokwa tsa botsogo tse di amang bomme le ba malwapa a bone. Re eletsa go itse maikutlo a gago ka dintlha tse di bothlokwa.

**A. General**

A1. A o kile wa utlwa ka HPV?  
**HPV e farologana le mogare wa HIV.**

A2. A o kile wa utlwa ka dikakana tsa ko bosading?

A3. A o kile wa utlwa ka kankere ya molomo wa popelo?  

A4. Fa mosadi a na le kankere ya molomo wa popelo, bolela dilo dile tharo tse o akanyang di katswa di bakile bolwetse jo?

#1 (eka bakwa ke)______________________________________________________________

#2 _________________________________________________________________

#3__________________________________________________________

Dipotso tse di latelang kaga **HIV** (human immunodefiecy virus) le ka kankere ya molomo wa popelo.

A5. O akanya gore **HIV** e ama jang seemo Sa mosadi gore a nne le kankere ya molomo wa popelo?

A6. O akanya gore **HIV** e ama jang seemo sa mosadi gore a nne le mogare wa HPV?

**B. Botsogo jwa ngwana wa Mosetsana**

B1. A o na le bana?  
□ Ee □ Nnyaa

B2. Fa karabo ele ee, tswee tswee kwala dingwaga tsa ngwana mongwe le mongwe, o akaretse le ba batona.

v1/13/09ID ___________________
HPV (Human Papilloma Virus) ke mogare oo tlhwaelesegileng wa malwetse a dikobo o o ka bakang kankere ya molomo wa popelo le dikakana tsa bosadi/bonna nako tse dingwe. Mogare wa HIV o oketsa/atisa seemo sa go ka tsenwa ke malwetse aa bakwang ke mogare HPV le kankere ya molomo wa popelo tota. Mo Botswana kankere ya mlomo wa popelo ke yone ee atigileng thata mo go bomme.

Se ke molomo wa popelo. Peo ya senna e tse na mo popelong ka phatlhanyana ya molomo wa popelo, mme o thibele dilo dingwe jaaka bonna go tse na kana fetela kwa popelo. Ka nako ya pelegi molomo wa popelo oa bula le letla lesea go tsholwa. Mo Botswana kankere ya mlomo wa popelo ke yone ee atigileng thata mo go bomme.

Bosadi(Vagina)

Dipotso tse di latelang ke ka bana ba gago ba basetsana. Fa o sena bana ba basetsana, tswee tswee di arabe jaaka o kare o na le bone. Fa ase dingwaga tse di magareng ga boferabognwe le losome le boferabobedi akanyetsa ale mo dingwageng tseo.

B3. Kgonagalo ya gore ngwana/bana ba gago ba basetsana ba tsenwe ke HPV mo botshelong jwa bone e kae?

- Ga e yo
- E kwa tlase
- E fa gare
- E kwa godimo

B4. Fa ngwana/bana ba gago ba basetsana bane ba tsenwe ke HPV, go ka nna diphatsha go le kae mo go bone?

- Ga go diphatsha
- Kwa tlase
- Fa gare
- Kwa godimo

B5. Go na le kgonagalo e e kae gore ngwana/bana ba gago ba basetsana ba tsenwa ke kankere ya molomo wa popelo mo isagong?

- Ga e yo
- E kwa tlase
- E fa gare
- E kwa godimo

B6. Fa a/ba ka tsenwa ke kankere ya popelo, se se ka nna diphatsha go le kae mo botsogong jwa gagwe/bone?

- Kwa tlase thata
- Kwa tlase
- Fa gare
- Kwa godimo
- E kwa godimo thata
**Dipotso tse di latelang ke ka HIV le Dikakana tsa ka fa tlase , ele malwetse a tlhakanelo dikobo.**

B7. Kgonagalo ya gore ngwana/bana ba gago ba basetsana ba tsenwe ke mogare wa HIV mo botshelong jwa bone e kae?

- [ ] Ga e yo
- [ ] E kwa tlase
- [ ] E fa gare
- [ ] E kwa godimo
- [ ] O setse ana le mogare wa HIV

B8. Fa bana/ngwana wa gago wa mosetsana a ka bo ane a tsenwe ke mogare wa HIV, se sene se ka nna diphatsa go le kaе mo botsogong jwa gagwe?

- [ ] Kwa tlase thata
- [ ] Kwa tlase
- [ ] Fa gare
- [ ] Kwa godimo
- [ ] E kwa godimo thata

B9. Kgonagalo ya gore ngwana/bana ba gago ba basetsana ba nne le dikakana tsa ko bosading mo botshelong jwa bone e kaе?

- [ ] Ga e yo
- [ ] E kwa tlase
- [ ] E fa gare
- [ ] E kwa godimo
- [ ] O setse ana le dikakana

B10. Fa bana/ngwana wa gago wa mosetsana une a na le dikakana tsa ko bosading se sene se ka nna diphatsa go le kaе mo botsogong jwa gagwe?

- [ ] Kwa tlase thata
- [ ] Kwa tlase
- [ ] Fa gare
- [ ] Kwa godimo
- [ ] E kwa godimo thata

**C. Mokento wa HPV:** Mokento wa HPV o jaanong o teng o o sireletsang kgatlhanong le dikakana tsa ko bosading (genital warts) le kankere ya molomo wa popelo. Fa gongwe o bidiwa mokento wa kankere ya molomo wa popelo, HPV shot, kgotsa Gardasil. Mme re tlaa o bitsa mokento wa HPV.

C1. A o kile wa utlwa ka mokento wa HPV pele ga letsatsi leno?

- [ ] Ee
- [ ] Nnya

**D. Go fiwa mokento ga ngwana wa gago wa Mosetsana:** Fa mokento wa HPV oka nna teng mo Botswana, o ka letlelelwa go wiwa bana ba basetsana ba ba dingwaga di fa gare ga ferabongwe le lesome le boferabobedi.

Ka tsweetswee araba dipotso tse di latelang o akantse ngwana wa gago wa mosetsana. Fa o sena ngwana wa mosetsana araba jaaka o kare o na nae. Fa a se dingwaga tse di fa gare ga 9 le 18 mo akanyetse ale mo dingwageng tseo.

E. Akanya o eletsu go fa ngwana wa gago wa mosetsana mokento wa HPV mme ebile oleng mo Botswana.

E1. O ka ya ka pele? (tsweetswe tshwaya gangwe fela)
   - Ngaka ya lolwapa
   - Ngaka ya bana
   - Ngaka ya bomme
   - Kokelwana ya motse
   - Kokelwana ya sekole. Tse
   - Dingwe ____________________

E2. Fo o ne o fiwa ko sekoleng, o ne o ka batla/eletsu ngwana wa gago gore a o fiwe teng?
   - Ee
   - Nnyaa

E3. O akanya gore go tla go thatafelele go le kae go tsaya mokento ko kokelwaneng?
   - Ga go thata gotthelele
   - Gongwe go ka nna thata
   - Go thata
   - Go thata mo go feteletseng

E4. Akanyetsa fa mokento wa HPV ole teng mo Botswana, jaanong bolela mabaka a le mararo a a ka go keteletsang go bona mokento o?

   #1 (sese kago keteletsang thata)________________________________________
   #2 ______________________________________________________
   #3 ______________________________________________________

E5. Tswee-tswee kwala batho ba o ka tsayang tshwetso le bone fa ngwana wa gago a ka fiwa mokento mo isagong: (Tshwaya botle ba ka kgonang)
   - Ke nna
   - Ke mopati wame
   - Ngwanake wa mosetsana
   - Mongwe yo Mogolwane
   - Ngaka ya gagwe
   - Mongwe ____________________

E6. O ka buisana go le kae le ngwana wa gago wa mosetsana ka tshwetso e?
   - Gothelele
   - Go le go nnye
   - Mo go lekanetseng
   - Thata

E7. Fa mokento wa HPV one o sa duelelwe ke goromente, o ne o ka duela bo kae mo mading a gago gore ngwana wa gago wa mosetsana a fiwe mokento o? P_________

F. Pap smear: Thlatlhobelo ya Kankere ya molomo wa popelo. Go thlatlhobela kankere ya molomo wa popelo. Thlatlhobo e, ke go bona gore a gona le ddiphetogo dingwe mo molomong wa popelo ya gago. Thlatlhobo e, e ka go thalosetsa gore a ona le bolwete, (ditshika tse di sa itekanelang mo molomong wa popelo kana kankere).

   Thlatlhobo e e dirwa jang? Ngaka o tsayang lewenyana mo molomong wa popelo go le thlatlhoba. O robala mo balaeng jwa thlatlhobo, go bo go tšengwa tshitswana mo bosading go bula molomo wa popelo. Ngaka o tla dirisa didiriswiwa tsa thlatlhobo (jaaka borashe) go tsaya matute mo tikologong ya molomo wa popelo. Matute a, a tshasiwe mo galaseng, a isiwe kwelelope la thlatlhobo, go thlatlhohwa.

   F1. Ao kile wa utlwa ka thlobotlhobo ya kankere ya molomo wa popelo (pap smear?)
      - Ee
      - Nnyaa
      - N/A

   F2. Ao na le maikaeleo a go itlhathlhela kankere ya molomo wa popelo dira pap smear ngawana ono?
      - Ee
      - Nnyaa
      - N/A

   F3. Tswee-tswee fa lebaka la karabo ya potso F2. Fa karabo e e, ke eng o ka itlhathlhoba kankere ya molomo wa popelo (pap smear) kana fa karabo e e nnyaa, ke eng o ka sa kake o e itlhathlhobele?
