

The purpose of week five recitation is to help students prepare for the midterm examination that will be held on Tuesday, September 29. Here are some thoughts.

Assignment

1. Work the relevant problems at the end of Chapters 1-3, 5, and 6.
2. Answer the practice multiple choice questions.
3. Make a list of the problems and questions that you do not understand and try to write a sentence of two about why you do not understand them.
4. Bring your questions to recitation.

Study Suggestions

1. The material test on the examination is the material emphasized in lectures. The exam will not test material unless it has been emphasized.
2. Do problems. This is helpful practice even when the exam comprises multiple choice questions.
3. Join a study group and be an active member of it.
