Quiz 2
The Consonant Chart

I. IPA chart: Draw the IPA consonant chart, filled in with the segments used in English.

Remember there are 8 places of articulation, and 8 manners of articulation. There are 27 consonants in English (2 of which occupy 2 spots in the chart each, so there will be a total of 29 spots filled.) Put the voiceless segments on the left, and the voiced segments on the right, even if there is only one segment in that box.
